### Terry Calhoun Graduates June 9th

Auburn University awarded 1,327 degrees at spring commencement exercises on Tuesday, June 9, at 2:30 p. m. in Memorial Coliseum.

This brings the total number of degrees awarded at Auburn since last June to 3,733.

Among the degrees conferred were 39 doctorates, 89 master's and 89 Doctor of Veterinary Medicine.

President Harry M. Philpot awarded the degrees. He also addressed the seniors receiving commissions in the three branches of military service at 9:30 a. m. in the Coliseum.

Because of the time required to present the diplomas individually, Auburn had no speaker for its June commencement.

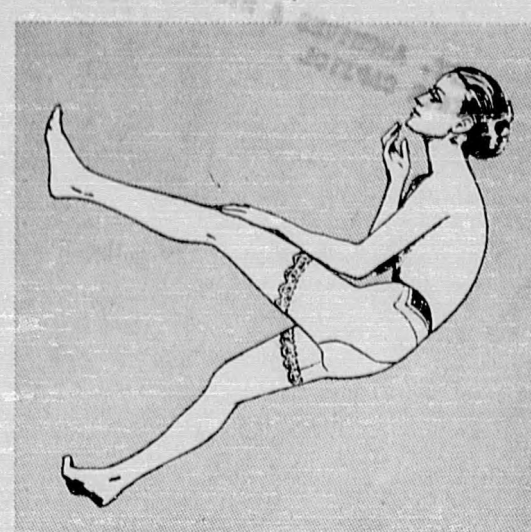

Candidates for the degree from this area included: Terrance Freddie Calhoun, Bach, Avia, Adkins, Elba; and William Joseph Maddox, Dr. Vet. Med, New Brockton.

SFC DRUM AWARDED COMMENDATION MEDAL

Sergeant First Class Raymond A. Drum, whose wife, Sybil, lives at 342 Brunson Circle, Route 3, Elba, Alabama, recently received the Army Commendation Medal while serving with the 79th Maintenance Battalion near Long Binh, Vietnam.

## TO THE CITIZENS OF PIKE, BULLOCK, GENEVA, AND COFFEE COUNTIES:

# THANK YOU

June 2, 1970 was the happiest day in my life. Through your kindness and energetic support, you have allowed me the honor of being your spokesman in the Senate of our great state. I shall never forget your untiring efforts on my behalf.

During the campaign, I have traveled throughout the district talking to as many of you as possible. I have given you my ideas and my platform of responsible representation. Between now and the time I take office, I shall travel through the district again—not to talk but to listen. I want to know what you want your state senator to do for you.

Ladies and Gentlemen, I will make you a good Senator. I solicit your advice and help as I prepare to be your servant.

Sincerely,  
**L. L. DAGO DOZIER**

### Candlelight Ceremony

#### Unites Couple On June 6

A candlelight ceremony in the Dothan First Baptist Church, Saturday, June 6, united in marriage Miss

Sandra Faye Fowler of Dothan and William Robert Mallory of Elba. Dr. Harper Shannon read the vows at eight o'clock in the evening.

The bride is the daughter of Mr. and Mrs. Archie L. Fowler of Dothan. Parents of the groom are Mr. and Mrs. Wade Mallory of Elba. A program of nuptial music was presented by Roy Watford, organist, who accompanied Mrs. Johnny Kelley as she sang, "Walk Hand In Hand," "Entreat Me Not To Leave Thee," and "The Wedding Prayer."

The bride, given in marriage by her father, wore a gown of AngelSkin Peau trimmed with Peau d'Ange lace, accented with seed pearls and styled with an Empire waistline. The bride featured a Victorian neckline and long pointed sleeves with lace inserts. Appliques of lace trimmed the A-line skirt and her Watteau train was edged with lace. Lace motifs

were repeated on the train. The bride's veil of illusion was attached to a cluster of lace leaves accented with pearls. She carried a cascade bouquet of feathery carnations and lilies of the valley centered with a white orchid.

Attending as maid of honor was Miss Linda Hallford of Pensacola, Florida. Bridesmaids were Miss Ella Mallory and Miss Norma Mallory, sisters of the groom, Elba, Mrs. Edward B. Hood, Jr., New Orleans, Louisiana and Miss Debbie Grimsley, of Dothan. They carried colonial bouquets of yellow daisies and gypsophila with accents of satin leaves and ribbons. Serving as best man for the groom was his father, Ushers included Mr. Ronnie Mallory of Elba, brother of the groom, Mr. Colin Dacus of Phenix City, Alabama, Mr. Bill Woodham, Elba and Mr. Kenneth Mooney of Columbus, Georgia. After a reception in the church parlor, given by the bride's parents, the couple left on a wedding trip to points of Georgia and Tennessee. The newweds will reside in Hanceville, Alabama, where the groom is employed as band director of the Hanceville High School. The big city glamour and glitter have become somewhat tarnished with high housing and living costs, and the rising crime rates, according to the National Industrial Conference Board. Some companies are offering relocation incentives to executives who accept transfers to high-cost metropolitan areas.

By Tom Casaday, County Extension Chairman

PEA RIVER POLLUTION A lot of people are taking place in the past several years. PEA River has been swept out of the county due to the rainfall in the past few days. I was in Elba late Thursday afternoon. In my 15 years here I can't remember when it was that high this time of the year. Even though we were thrilled to see the rain, I was sorry to see some soil erosion. But fortunately from a soil erosion standpoint, we don't have as many acres in row crops as we did several years ago.

Many communities in the county reported from 8-12 inches rainfall in the past six days. Lewis Edwards, soil conservationist, who came to Coffee County 30 years ago told me that one June we received 12 inches of rain. Since we are in the beginning days this might be the wettest June in history.

WATERMELONS John Windham of Route One, New Brockton, has 32 acres of watermelons. His varieties are Congo and Charleston Grey. Both of these are fine varieties. Windham says he will have some ripe ones about June 20 but won't have large truck loads until a few days after this. He lives in Damascus community across from the Damascus fire tower.

Other folks who are growing some watermelons are Bill DeVaughan and Buster Bowden.

## DE VANES

ELBA, ALABAMA

While we are on Elba's needs let me write a few more words of wisdom. Elba is progressing this is sure. We have Kleinfert's, new airport facilities, they are bringing in more electric power, and planning another water well and tank, to name a few items.

Some new houses are being built on the Kinston Highway and others are planned. Now the city councilmen must do their job of planning for the future just as anyone else would which doesn't leave them much time for the city business. Therefore, it is up to other civic minded citizens to help get the job done.

ing suggested projects and others underway. More housing (someone needs to make a strong effort to get the proposed construction for the housing authority approved and underway). Widening of U. S. 84 past Dorsey and out to Kleinfert's. Improve the library and build a new building (federal government matches 50-50). Extend the airport runways (Kleinfert's directors had to land in Dothan this week). Improve the overall recreation opportunities for everyone, especially the youngsters. It would be ideal if there was someone working on each of these projects and a multitude of others - all at the same time! Of course, the first big question is money, but others are doing it and so can Elba. Any volunteers?

While the election is over, The governor's race is not the only one in which my candidate lost nor is it the first time I voted for a loser unfortunately. While I have been subjected to the normal good natured needling since the election, I admire the people of Elba for one thing - not one person has been ugly or openly resentful of the fact that I supported Albert Brower and not George Wallace. In other words I have heard some wild tales of other reactions.

This hit about the election easily leads up to another point. During the campaign there was a good bit of talk of "our side of the county." Well our officials are elected now and the county is equally represented "by my" and "your" side and work for our Coffee County suits me just fine! This selfish talk of feather my nest first can tear a county or town right down the middle and no one would profit from that action. Therefore, let's everyone work for what is better for Coffee County and stop these open and hidden actions and threats of "my" and "your" side and work for our Coffee County, P. S. If you are wondering if this means you, it does!

Last week I made a picture of Industrial Boulevard here in Elba. It was raining and the mud was deep. One truck was stuck coming from Hickman's Moving and Storage and it looked as if it would get stuck. Before using the truck I had a strong effort to get this attract industry to our industrial park. I called Mayor Brunson. He stated that that street was scheduled for paving with the next paving done in Elba. He couldn't give a definite date but expressed hope that it would be soon. Good.

While we are on Elba's needs let me write a few more words of wisdom. Elba is progressing this is sure. We have Kleinfert's, new airport facilities, they are bringing in more electric power, and planning another water well and tank, to name a few items.

Some new houses are being built on the Kinston Highway and others are planned. Now the city councilmen must do their job of planning for the future just as anyone else would which doesn't leave them much time for the city business. Therefore, it is up to other civic minded citizens to help get the job done.

## A GOOD JOB

Billy's getting bigger, and Susie's catching up. And Mom — like any proud mother — is delighted. Their physical progress is one indication that she's doing a good job.

But is she being just as careful about other, equally vital parts of that job? Is she also measuring their spiritual progress? As it happens, she is. Billy and Susie are both already going to church and church school.

If you have been thinking that your own children are too young to begin their religious education, why not give them the chance to measure up spiritually, as well as physically? They're apt to surprise you!

# LITTER IS "UNSIGHTLY"

Litter is ugly - it is dangerous. It is costly. The "ugly" parts are easily understood, and needs no clarification. Just look around.

The "dangerous" part includes, among other things, health hazards. For example, litter piles attract mosquitoes, rats and other pests, which spread disease and dirt from their unsightly feeding places. When litter is tossed from automobiles, there is the danger of a broken windshield or the car following or the driver's vision may be obstructed; and additionally, any other types of accidents have been attributed to littering.

Litter is costly. First, it costs great sums to clean up. One example is the Alabama highway system, during last year's concentrated anti-litter effort, it cost some \$250 thousand to clean up the 10,000 miles of roads within the state. To keep these roads clean around costs an estimated \$1 million - and at taxpayer's money, it is this to the fact that clean state attracts new industry much more readily than a dirty one, and it is conceivable that litter could be the cause of a monetary loss, rough lack of new jobs and new income.

What can be done? The Alabama Highway Department has led the way a cleaner, more attractive Alabama. It has cleaned the highways, and is continuing to do so. During its initial Anti-litter campaign last summer, 60 employees collected 991,244 gallons of litter on our highways alone. Tons were issued by Alabama State Troopers as well as County and City enforcement officers across the state. This year, other concentrated effort will be made for the period June 15 - July 17. Again, employees will walk the 100 miles of our highway system and pick up at careless people have caused. And again, taxpayers will pay for it. All this would be unnecessary if litter were disposed of properly.

So, in addition to the anti-litter efforts, more importantly, the Highway Department is educating the citizens and school children to have received educational material in the form of films, posters, bumper stickers and an informative, colorful brochure titled "Are You A Litterer?" This material has been distributed through cooperation on Chambers of Commerce, Municipalities County Commission, civic and business organizations and private individuals. Already, this time, requests for anti-

litter brochures has resulted in more than one million of them having been mailed out across the state. Everywhere, Alabama's citizens are becoming more and more concerned

with this problem. It has been suggested that the only way to stop littering is to enforce the anti-littering law. A \$100 fine can be imposed on persons found guilty of littering.

Probably this would tend to deter this nasty habit - for those who had to pay the fine. But this would touch only a small segment of our population. The real deterrent to littering is a small segment of our population. The real deterrent to littering is a small segment of our population. The real deterrent to littering is a small segment of our population.

involved, with civic and other organizations cleaning up other than private property. Each person has to feel his responsibility in this important matter. If everyone puts his own litter in the proper place, there would be no need for expensive, expensive clean-up campaigns, no need to print literature warning against the dangers. Carry a litter bag in

your car and boat. Then use the conveniently placed litter barrels for disposal of the trash and garbage. Don't be a "Junkie." It could cost you a hundred dollars and perhaps even a jail sentence. Don't be a "Junkie." Take pride in your home, your community, your state. Litter is ugly - it is dangerous - it is costly.

## ASCS Receives Payment Drafts For Farmers

Some farm program payment drafts are already being received in the Coffee County ASCS Office for issuance to producers on or after July 1, according to Roy L. Ellis, Chairman of the Coffee County Agricultural Stabilization and Conservation Committee.

By the end of May, about 325,000 data sheets had been received in the ASCS computer center in New Orleans. By the end of August when farm program payments are expected to be substantially completed, we anticipate that about 2.25 million data sheets will have been received and processed," he said.

He reminded participants in the feed grain wheat and cotton programs that early certification of compliance means early payments. "As soon as a producer certifies, the County ASCS Office begins processing the papers for the payment he has earned," Mr. Ellis said.

The County office sends the data sheets to New Orleans where the Data Processing Center computes the payments earned and prints out eight drafts and statements - of - payments computations. These are then returned to the County ASCS Office for issuance to producers. No payments may be issued until July 1, the beginning of the fiscal year, when sufficient funds become available.

While urging early certification by producers, the County ASCS Committee Chairman said that he recognizes it is easier for some to certify early than for others to do so. "Certification must be accurate, Program participants must know exactly their planned, diverted, and conserving base acreages. They must be sure they have complied with all program provisions before they certify," he said.

Producers with small feed grain bases or wheat allotments which they diverted altogether, or cotton growers who got a good stand early - generally, these folks were in excellent position to certify. And participants who got measurement service from the county office have been able to make early certifications," Mr. Ellis commented.

Some 1,105 producers are participating in the feed grain program, 23 in the wheat program, and 291 in the cotton program in Coffee County this year. The programs are voluntary. In return for participation, producers earn price-support payments, are eligible for price-support loans, and may earn diversion payments for feed grain and wheat. To earn these payments, they limit production of the program crops, and set aside cropland for conserving uses which protect the soil.

## Illegal Drugs Found In Daleville Saturday

Forty-six bags of marijuana valued at \$1,000, ten LSD tablets, ten amphetamines, ten barbiturates, and an assortment of pipes, needles, containers, spoons, and a bag of unidentified white powder were taken in Daleville, Saturday, when seven FBI Rucker soldiers were arrested and charged with possession of illegal drugs. The arrest was made as a result of an investigation by the Daleville Police Department for about two weeks and round-the-clock surveillance. Unusual activity was observed around some newly rented houses at this time.

Police chief Joe Gallo said Randall Pearce was arrested Saturday, when he went into the woods back of the houses where some drugs were hidden. Following his arrest, a house-to-house search was conducted.

Also arrested and charged with the illegal possession of drugs were Modesto Flores, L. Onis Fazzi, Joseph Bedford, Michael Gironimi, Cornell Carvina, and Joseph Plancher. A number of other persons were detained, but were later released, Gallo said. The case is presently under investigation.

## Mrs. McDaniel Faces Challenge In Court

Mrs. Juanita McDaniel's right to be a Democratic party nominee to the Alabama Public Service Commission has been challenged.

In a protest filed with the party's state headquarters, attorney John W. Williams, Jr., charged that state law prohibited Mrs. McDaniel from running because her congressional district already holds a seat on the utility-regulating commission.

Mrs. McDaniel is from Montgomery. Incumbent C. C. Owen, who won reelection in 1966, is also a Montgomery resident.

The contest asks that Mrs. McDaniel's opponent in the Democratic Primary runoff, J. R. Waggoner, be declared the party's nominee.

The chairman of the Alabama Democratic party, Bob Vance, said Monday that he would appoint a five - member party subcommittee to hear the contest.
